

Labrador Petro-Management Pty Ltd

About Us

Labrador Petro-Management Pty Ltd (LPM) was established in Perth, Western Australia in 1987 as Australia's first drilling project management company. Since then LPM has grown to be a major provider of consulting and project management services to the Oil & Gas industry with branch offices in Nova Scotia, Canada and New Zealand.

LPM formed an international alliance in 2003 with TEAM Energy Resources to offer a wider range of project management services, including onshore drilling, well testing, completions and reservoir engineering capabilities.

Continuing the effort to add value to its Australasian drilling and project management services, LPM partnered with the UZMA Group to assist in marketing its services in the region. Recently, LPM has formed an association with STAG Geological Services Ltd to further expand its services in the Middle East, Europe and West Africa.

LPM implemented a comprehensive management system in 2006 to enhance its business processes. The LPM Management System (LMS) ensures personnel have access to the latest policies, processes and procedures. The LMS provides clear guidance of how LPM does business in order to continuously improve processes and achieve the highest possible standards of client satisfaction.

Our Services

Drilling Project Management

- **Well Planning** – development of detailed drilling programs.
- **Materials & Logistics Support** – experienced logistics personnel with local knowledge.
- **Cost Accounting** – accountants with local and drilling project specific experience.
- **Government Approvals** – advice, assistance and co-ordination for obtaining government approvals.
- **Well Testing** – design, verification and supervision.
- **Drilling Unit/Third Party Services Tender/Contract Negotiation** – contract engineers with proven contract templates and tenders to streamline the contracting and tendering process.
- **Operations Supervision** – professional drilling supervisors with specialist local experience and professional accreditation.
- **End of Well Reporting** – proven templates and advice for capturing all well data and lessons learned.

Planning & Operations Consulting

LPM provides individual consulting specialists in the fields of:

- Drilling Engineering
- Drilling Operations Supervision
- Completions Engineering
- Well Testing Engineering
- Contract Engineering
- Logistics and Material Management Coordination
- Operations Geologists
- Wellsite Geologists
- Emergency Response and Oil Spill Contingency Planning for Drilling Operations
- Benchmarking Studies
- Cost Accounting

Health, Safety & Environmental Management Systems

- **Documentation Development:**
 - ◆ Emergency Management Plan
 - ◆ Emergency Response Plans
 - ◆ Oil Spill Contingency Plans
 - ◆ Safety Case Bridging Document
 - ◆ Environmental Plans
- **Training:**
 - ◆ Operations and Management Team HSE Training and Inductions
 - ◆ Emergency Table-Top Exercises
- **Personnel:**
 - ◆ HSE Coordinators
 - ◆ Oil Spill Advisors
 - ◆ Environmental Advisors
 - ◆ Marine Operations Advisors
 - ◆ Public Relations Coordinators
